

# SEPARATORS FOR CHEMICAL APPLICATIONS

## Vibrating Separators for Chemical Applications

Chemical plants across North America depend on Tec Scrn vibrating separators to help them manufacture thousands of different products used in virtually every industry.

Our vibrator motors can be strategically adjusted to provide an infinite range of separating patterns for a variety of chemical applications. Our circular separators are trusted by some of North America's leading chemical facilities to safely, efficiently and economically perform separation tasks to the most exacting of standards.

*G-Max Separators are available in the following diameters: 48" and 60".*

## Centre Discharge Separators for Chemical Applications

Our Centre Discharge Separators, Circular Vibrating Separators and G-Max Separators can accommodate a wide range of agricultural applications. Our vibrating separators are available with multiple decks, providing up to five particle size classifications, constructed from the highest-quality stainless steel and can be customized to your precise requirements.

Our vibrating circular separators for agriculture are available in diameters ranging between 24" and 72".

*Centre Discharge Separators are available in the following diameters: 24", 30", 36", 40", 48" and 60".*
